

IR Variable Power Switch

NO-NA- IRV

Night Optics USA, Inc. is now offering a new 3 position Variable Power Switch. The new switch features improved construction, with smoother switching and an easy to use 3 position (100% | OFF | 50%) power output.

The previous generation of the IR Variable Power Switch featured a 5 position switch (OFF | 100% | 50% | 25% | OFF)

The new and improved switch is also lighter, down 5 grams from the previous generation.
